We connect public and private interests

Private

Innovative development
Bridging the Gap

Public Health

Global access
Vaccination programs

DCVMN
Big Farma
Biotech
Governments,
BMGF, WHO,
UNICEF
Our strength is in the core vaccine development
Our organization is committed to 3R’s

- Working with the Ministry of Economic affairs on replacing, reducing and refining animal testing where possible
- Since the 1980’s
- Last years mostly in direction of consistency testing
- Working closely with regulatory bodies and industry
- Examples of successes:
  - fingerprint techniques tetanus and diphtheria
  - in-vitro methods for pertussis
- Innovative Medicines Initiative 2015
Welcome to the congress
